## VIDEO EDITOR

A little bit about myself, I'm a video editor with a religious dedication to self-improvement and my attention to detail means I will never walk away from an edit until I feel it has realised its full potential.

I believe films have the power to affect change in our world, may it be a short film that makes someone laugh or a documentary about climate change. I think films are important and I intend on making them for as long as I can.

### CORE SKILLS

- Keen eye for detail
- Active team player
- Trained to implement feedback
- Known for my collaborative approach

### TECHNICAL SKILLS

### EXPERIENCE

#### -DIRECTOR-

Chasing the Perfect Cup  
documentary
